AUTHOR INDEX TO VOLUME 3

BERENDES, H. D. *Nuclear-mitochondrial Interactions in the Control of Mitochondrial Respiratory Metabolism* 119

BISWAS, B. B. *Chromatin and Ribonucleic Acid Polymerases in the Eukaryotic Cell* 27

CRANE, F. L. *Proteins of Mitochondrial Cristae* 1

DERKSEN, J. *Nuclear-mitochondrial Interactions in the Control of Mitochondrial Respiratory Metabolism* 119

GHOSH, B. K. *The Mesosome – A Clue to the Evolution of the Plasma Membrane* 311

GONZÁLES-CADAVID, NÉSTOR F. *The Biosynthesis of Mitochondrial Cytochromes* 275

GREENBLATT, GERALD A. *Considerations of Citrate Synthase in Procaryotes and Eucaryotes. The Case of Yeast Citrate Synthase; The Absence of Sulphydryl Groups and Reactivity with Sulphydryl Reagents – An Apparent Contradiction* 249

HARE, J. F. *Proteins of Mitochondrial Cristae* 1

HELMSING, P. J. *Nuclear-mitochondrial Interactions in the Control of Mitochondrial Respiratory Metabolism* 119

KNOPF, U. C. *On a Eukaryotic Cell-transformation by a Bacterium* 39

KONINKX, J. F. J. G. *Nuclear-mitochondrial Interactions in the Control of Mitochondrial Respiratory Metabolism* 119

KUTZELNIGG, H. *Investigations on Plastome Mutants in Oenothera* 1. *General considerations* 73

LEENDERS, H. J. *Nuclear-mitochondrial Interactions in the Control of Mitochondrial Respiratory Metabolism* 119

LENAZ, G. *Lipid-Protein Interactions in the Structure of Biological Membranes* 167

ROLLESTON, FRANCIS S. *Membrane-Bound and Free Ribosomes* 91

SARKISSIAN, I. V. *Considerations of Citrate Synthase in Procaryotes and Eucaryotes. The Case of Yeast Citrate Synthase; The Absence of Sulphydryl Groups and Reactivity with Sulphydryl Reagents – An Apparent Contradiction* 249

STUBBE, W. *Investigations on Plastome Mutants in Oenothera 1. General considerations* 73

WARR, J. R. *Genetic Approaches to the Study of Microtubule Structure and Function* 149
